The positions to be filled are:

- ◆ Member of the Electoral List Review Board
- ◆ Scrutineer
- ◆ Secretary of polling station
- ◆ Information and Law Enforcement Officer
- ◆ President of the verification table
- ◆ Member of the verification table

For further information, please contact me at 418-396-5225, ext. 2.

Word from the Mayor

Dear citizens,

Allow me first of all to offer my sincere greetings!

In this article, I will focus on a topic that is part of our daily concerns of improving our municipal road network. As far as our municipality is concerned, this translates into 45 km of secondary roads and 55 km of forest roads. We understand that both work and financial investment are major, hence the importance of, on the one hand, benefiting from the generosity of certain government programs and, on the other, staggering the work over a few years.

Last spring, we enrolled in a government financial assistance program to rehabilitate our local road network. This program is going to allow us very important savings and not insignificant. It is a two-part program, "Rectification" and "Acceleration". Roads eligible for financial assistance have been prioritized by the Ministry of Transport.

For the "Acceleration" component, the eligible routes are: the Old School Roads, Loiselle, Chouinard, Marcil, Bellevue, Clemville, la Pointe and Amédée. These roads are eligible for 75% financial assistance. For the Recovery component, the eligible routes are: the Anse McInnis, Captain Fournier, Morin North, Passerelle, Le Havre and Riviere. . These routes are eligible for 90% financial assistance. Other routes were targeted by the municipality: Anse-à-la-Barbe, Capitaine, Mercier and Lebrun.

For the roads of the « Acceleration » component and the roads targeted by the municipality, work is expected to begin this fall and for the roads in the « Recovery » component, next spring. For the forest roads, the improvement works are begun.

For more information, I invite you to contact me at any time and I will be happy to answer your questions.

On behalf of the municipal council, we wish you a pleasant summer and be assured of our dedication to the advancement and development of our municipality!

Henri Grenier, Mayor

September 14th to 17th

THE PAINTERS ARE IN TOWN
IN PORT-DANIEL-GASCONS

Finally came back from our emotions

The Rock'N Ride Show Committee would like to thank the festival-goers, the Optimist Club and the Municipality for their support during our first edition at the Port-Daniel-Gascons Fishing Festival.

Thank you to our dear sponsors and our volunteers who, without them, this event would not have taken place. A special thank you to Stéphane Parent, North American Tour, ÉRIC LOBO, the director of the leisure activities Éric Huard, the secretary of the point of Gascons service Mélanie Lantin, Langis Huard, Marco Wagner, Jacques Briand Leblanc, Janie-Lee Grenier as well as exhibitors for their great involvement.

Special thanks to the lobster vessels for the lobster dinner, Dunamis navigation inc, pêcheirie Jean-Yann II inc, pêcheirie Francis Parisé inc for fireworks.

Please be assured that we are working on the second edition to make changes and new features.. See you next year !!!!

P.S: Get ready for 2018 !

A word from Alexandre Rail, McInnis Cement Vice President Operations

Good day all!

After an intense summer in Port-Daniel-Gascons and also throughout the other McInnis facilities, I am very happy to share with you our latest news.

Over the past few months, our production has stabilized over the entire chain of operations, from the quarry to shipment. Our team has gained immeasurable experience over the months of intensive work that we have experienced since the beginning of 2017. Let me highlight the contribution of our employees and partners involved in the start-up of the plant. It is because of their commitment that cement is stored in our silos, in quantity and quality.

For June and July, we exceeded our production targets for cement as well as clinker, which is produced in the kiln and stored in the three silos located south of the tower. When you see the kiln rotating, we produce clinker! This is the most delicate and difficult part of the whole chain of operations of the cement plant.

The NACC Quebec, our cement distribution vessel, spent part of the summer at our terminal. The last tests on the loading arms were carried out successfully and we have already loaded the ship, which delivered our cement to Providence, Rhode Island. The NACC QUEBEC may already be back for another load as you read these lines. And ships will be continuously arriving at our maritime terminal, both to receive raw materials as well as to ship cement.

In our terminals

In addition to the Providence location, the Sainte-Catherine terminal is also completed and will soon receive cement from the plant. Our Oshawa terminal in Ontario is in the very last stages of construction and will join the network in early Fall. And construction of the Bronx facility has begun a few months ago and will be ready later in 2018. You can imagine that at all McInnis locations and offices, we will remember the Summer of 2017 for a long time!

Let me also remind you that we will have the pleasure to receive you soon for a tour of the plant, we'll share the details with you shortly.

Regards,

**Alexandre Rail, Vice-President, Operations Port-Daniel-Gascons
McInnis Cement**
