Word from the Mayor

Dear citizens,

As we are approaching the summer season, we are busy cleaning up our municipality. It is our quality of life to all of us, but also, the many visitors who will visit our municipality this summer will notice. We started by cleaning our beaches, mowing our lawn, trimming our shrubs, flowers and cleaning our roadsides. We invite the public to participate and contribute to the beautification of our municipality by the household around their homes. By working together, our municipality will be more attractive and inviting and our sense of pride will be greatly enhanced.

That leads me to talk about secondary roads, which for the most part need to be improved. This spring, we enrolled in a certain program of government financial assistance. The same program covered two components, the recovery component and the acceleration component. In the recovery component, some of our municipal roads are said to be prioritized and we can receive up to 90 %. In this component, we have submitted an application totaling $1,700,000 and we are waiting for the response in the coming weeks. In the acceleration component, the cost of the work is estimated at $800,000 and we received confirmation of financial assistance representing 75% of the total cost. By the time we go into loan settlement and tender, we are hopeful that we will be able to do the work in September.

Also, in the near future, we will develop the cultural and family space at the wharf at the tourist center. Our new identification signs will also be installed at the ends of the municipality.

In the case of the Old Convent, the plans and specifications are on the drawing board, which means that the work of repairing the building is undertaken. Preliminary plans and cost estimates for the Gascons Sewer Project are now known and will be submitted to the Infrastructure Directorate of our government. The file for the senior's residence is progressing and the project will soon be deposit at the Quebec Housing company. (SHQ).

The day camp for children between the ages of 5 and 12 returns this year to the delight of young people and their parents. On June 24th we will celebrate St-John the Baptist day and in July, the festival will be there. This year, a day dedicated to motorcycle enthusiasts will be part of it. By the way, we salute and wish the festival's organizers, the Optimists and the Rock N'Ride Show committee, and their partners and the many volunteers!

Other issues are also part of our daily lives and the progress of our municipality is always at the heart of our concerns!

Finally, I join the members of the municipal council and the employees to wish you a wonderful summer!

For your information

Dr Marianne Harvey returned to practice as a family doctor in Port-Daniel in 2017.

To obtain care and follow up, you should have notified the referral desk for orphaned patients at 418-689-2261 extension 2020 and obtain a registration form available at the municipality of Port-Daniel and Gascons or at the pharmacy Jean Coutu of Gascons from July 6th 2017.

Subsequently, Dr. Harvey will contact you by phone or letter to arrange an appointment. We expect to be able to start receiving patients as early as September 1st or earlier if the technical organization of the office allows.

Looking forward to contributing to your good health care.

Marianne Harvey Dr

A word from Alexandre Rail, McInnis Cement Vice President Operations

Good day all!

Before the summer comes, let me take a moment to update you on the project and the company.

Start-up and commissioning of the cement plant

Our start-up procedures are still ongoing on the plant site, and you will not be surprised if I tell you that there are many challenges on the field. There's no need to be worry, nothing is insurmountable and the determination shown by our team throughout the development of this great project is expressed more than ever during this crucial and complex period. We are almost there, and we will inform you of the exciting steps that are on our doorstep.

You may have seen in the news the arrival of the NACC Québec, the vessel that will deliver cement mainly to our Canadian terminals. The inspection process proceeded smoothly, the ship is now flying the Canadian flag and its home port is Gaspé. She's still there though, ready to join our terminal as soon as we need her presence!

Open House to come!

As we focus our efforts on producing our first cement, I would like to inform you that our team will be very pleased to welcome you this fall, as our guests for an Open House at the plant. This will be an opportunity for you to discover the facilities and equipment more closely, to understand how it works and to meet with our team. We are also putting in place a system that will allow the residents of Port-Daniel–Gascons to reserve their place for this visit exclusively, a few days before the invitations will be open to all. Stay tuned!

Stay in touch!

Now that many of our equipment is in operation, I want to let you know that your questions are always welcome and that it is important that we keep in touch. If you wish to tell us about a particular situation, we invite you to join us by e-mail at plaintes@cmcinnis.com or by telephone, via a direct line dedicated to our neighborhood: 418 396-3332.

See you soon!
