

You are the **owner of a farmland**? You are not currently cultivating your land? You want to put it at the disposal of a farmer?

**ARTERRE services are there for you!**

ARTERRE is an agricultural support and pairing service now available on the Gaspé territory. Through the intermediary of networking agents, ARTERRE makes it possible, among other things, to connect **landowners with farmers** interested in cultivating the land. Since working the land requires time and investment to ensure the plots' productivity, 5 to 10 years agreements are preferable to secure the work of farmers. ARTERRE's networking agents are there to accompany you in drafting written agreements and through the steps leading to a pairing with farmers.

Thus, **if you own an uncultivated farmland or know a landowner who would like to grow it**, contact the networking agents:

418-392-4466 # 224
