Word from the mayer

Dear fellow citizens,

After a harsh cold and snowy winter, spring seems welcome to me !

Runoff from streams, birds singing, budding and flowering plants, the appearance of grass on flowerbeds and warming temperatures are aspects of life expressing joy, well-being and comfort.

Spring is also an opportunity for major cleaning and to this end, I invite the population to clean their land and the outline of their residence. It is in this way that everyone can contribute to the beautification of our municipality and the joys and happiness of the summer season that result.

With that, I join members of the city council and municipal employees in wishing you a pleasant spring season and a happy Easter.

Henri Grenier, mayor
