NEXT REGULAR SESSIONS OF THE MUNICIPAL COUNCIL

MONDAY, OCTOBER 10, MONDAY, NOVEMBER 14
MONDAY, DECEMBER 12

Word from the mayor

Dear fellow citizens,

Recently, we received the various reports of our audited financial statements for the year ending December 31, 2021.

There show that the municipality's financial situation is doing well and that our debt ratio is within the norms. Despite major investments in our infrastructure (municipal garage, fire station, multifunctional center, outdoor center, wharf and public stage at the Cultural and Family space, intergenerational park, improvements to our road network, etc.). We have maintained the residential property tax rate at 59¢, among or otherwise the lowest rate in the province. I would also like to mention that in the vast majority of our projects, we ensure that we receive significant government assistance, which significantly reduces the municipal financial contribution.

In addition, to investing so that our municipality is more attractive to attract new families to settle in our Beautiful Municipality, our desire is to offer our population a maximum of services for people of all ages (improvement of the quality of life). The renovation and expansion of our arena and its conversion to a sports center including a gym, a palestra and a multi-sport surface is a very good example.

Finally, three important elements that drive our investment decisions are our concerns about the Health, Safety and Well-Being of our population.

With that, I join city council members, management team and staff in offering you our distinguished greetings!

Henri Grenier, mayor

Anne-Claude Poirier, director

Subject :backfill and excavation material

BACKFILL

Work consisting of bringing back soil or other surface materials to make a lift or fill a cavity.

In the case of a forest road: materials brought to give the forest road the desired profile, width and drainage.

EXCAVATION

Work involving the removal of soil or soil from place, either to level or dig or alter the natural shape of the land, or to procure soil for backfilling.

As part of the construction of a forest road: Materials excavated to give the forest road the desired profile, width and drainage.

In general, backfill and excavating work on land is prohibited.

12.6 AUTHORISED BACKFILLING AND CUTTING WORK

If the development of traffic lanes, parking space and recreational area is impossible unless backfill and excavating work is carried out, such backfill and excavating work is authorized.

During the work carried out of backfill and clearing a certificate of authorization is mandatory.

Contaminated soils and construction waste are prohibited from use during an embankment operation.

TYPES OF RIBS - SETBACK

- *Loose cliff side; 35 m*
- *Rocky coast : 30 m*
- *Coastal spire coast : the entire surface of the spire bounded by the 40 m coastline*
- *Maritime marsh coast : entire surface of the marsh plus 35 m behind*
- *Side to beach terrace; 40 m*

PROHIBITED USE INSIDE THE PROTECTIVE STRIP

Backfill work, except for an embankment whose thickness is less than 30 cm above the natural profile of the land and carried out outside the shore defined by the Policy for the Protection of Shorelines, Coastlines and Floodplains;

The application for a certificate of authorization in the case of soil excavation and backfill work does not apply to the digging and backfilling of the foundations of a building that has obtained a building permit.

7.1 OFFENCES

No one may contravene or allow to contravene any provision of the urban planning by-laws in force.

Any person who contravenes the provisions of the Planning By-laws commits a separate offence and is liable to a fine.

7.5 RECOURSE

1° In addition to the remedies by penal action, the municipality may exercise before the courts of civil jurisdiction all the other remedies necessary to enforce the provisions of the planning by-laws.

2° The municipality may avail itself of the penalties and remedies provided for in the Act respecting land use planning and development (R.S.Q., chapter A-19.1) and institute all appropriate legal proceeding. The municipality may also, and independently of any recourse for penalty, use any civil remedies deemed necessary or useful by way of injunction, action or petition for demolition and otherwise to enforce the provisions of the planning by-laws.

For more information, you can contact the municipal inspector at 418-396-5225 ext. 121

The municipality of Port-Daniel-Gascons will receive until 11:00 a.m., Friday, Octobre 21, written submissions to Melissa Castelloux Allain, assistant clerk-treasurer for:

**2009 Ford CTV Emergency Unit Vehicle
(engine out of operation)**

Each bidder must do its own verification. He must take it in the conditions in which he is, declaring that he has seen and examined it to his satisfaction without any guarantee and buy it at his own risk.

The municipality does not undertake to accept either the highest, lowest or any bid.
